AFTER YOUNG MEN OF CITY

Authorities Arresting Those Who Have No Visible Means of Support.

The county and city officials are waging war against young white men of this city who are known to spend a large portion of their time in the restricted district, both day and night, their arrest being, in a great many instances, the result of complaints lodged with the officials by the parents of the young men, and also a desire on the part of the officers to enforce the law.

For the past several days a large number of local young white men have been arrested on the charge of being vagrants, several of them being held for trial before the next term of the criminal court at preliminary hearings held a few days ago.

In a number of cases the defendants were given an opportunity to secure employment, but if they return to the district from which they were arrested and again become prominent by their presence in that part of the city, the authorities say the law will be rigidly enforced.

During the past week several keepers of houses in that district have been arrested in the recorder's court for allowing minors to visit their places. One of the defendants was fined \$10 and costs yesterday morning and the trial of another will be held this morning.

A joint public installation of officers of Live Oak Camp No. 1, Hickory Camp No. 21 and Oak Grove Circle, W. O. W., occurred last night in the K. of P. A pleasing feature of the evening was an excellent drill given by the ladies' degree team of Oak Grove Circle, which was heartily applauded and much enjoyed by those who appreciated the beautiful work of the team. Mayor Goodman delivered an elaborate address on the subject of the order as it has flourished in Pensacola, which elicited much enthusiasm. Mr. Goodman is prominently connected with Hickory Camp No. 1, and his remarks were clever and exceptionally well put. J. F. Mrs. Eldridge, who has been elected
